IEEE

A 24-HOUR NATIONAL LEVEL OFFLINE HACKATHON

MAGNATHON
2026

📅 09 & 10 February 2026

📍 College of Engineering Vadakara

ABOUT
MAGNATHON

Magnathon is a **24-hour national-level offline hackathon** organised by **IEEE SB CEV** as part of **Quasso Liberum**, the annual tech fest of the **College of Engineering Vadakara**. It brings together students from diverse disciplines to explore emerging technologies and build practical solutions to real-world problems in a collaborative, high-energy setting.

After the successful editions in **2022** and **2024**, Magnathon has established itself as a strong platform for student-led innovation. The previous edition was **honoured** by **Dr. S. Somanath, Former Chairman of ISRO**, at the **IEEE Kerala Section Awards 2023**, highlighting its growing impact. With rising participation from across the country, the upcoming edition promises an even more competitive experience.

Industry and community partnerships play a key role in Magnathon. By connecting participants with mentors, professionals, and organisations, the hackathon helps turn ideas into real-world solutions and creates opportunities that extend well beyond the event.

Partnering with Magnathon enables you to:
- Engage with top student innovators from leading institutions
- Gain strong brand visibility within a focused tech community
- Mentor and guide high-potential ideas through industry expertise
- Support solutions with real-world and startup relevance
- Build lasting collaborations with IEEE chapters and academic partners

ABOUT
IEEE SB CEV

The **IEEE Student Branch at the College of Engineering, Vadakara** is one of the **most active and successful** IEEE student branches in Kerala. Since our establishment a decade and half ago, we have grown to have over **190+ student members**, **3 graduate members**, and **3 active societies**: IEEE Computer Society, **Power Energy Society**, and **Education Society**. We also have a **Women in Engineering Affinity Group (WIE AG)** to support and inspire female students in engineering.

Our branch has organized various programs and events at different levels, including IEEEXtreme, Enable, Uplift, Electroclash, TeqWiEn and more which have received positive feedback and outcomes from the participants and made a real impact on the society.

Additionally, our branch has many talented members who have participated and won accolades in regional, sectional, hub, and student branch-level competitions. We also have our members getting into sectional and hub-level teams to showcase the strength of our Student Branch.

Our goal is to provide a platform for young engineers to develop their technical and innovative skills and to contribute to society through technology and education. Our motto is: **"Alone we can do little, together we can do so much."**

ABOUT
HACKATHON

Date and Location

Date: 9th and 10th February, 2026

Venue: College of Engineering Vadakara, Kozhikode

Registration

Registration has NOT started and the last date to register will be Announced

Selection

After the registrations closed, we will shortlist the teams from the pool of registrations. The chosen team members will receive an email to RSVP for the event.
